

Ain't no mountain high enough

by Ashford and Simpson

want

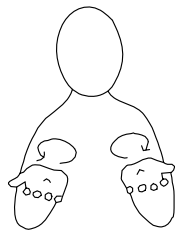

Palm forward
fist hand
bursts open
while moving
forward

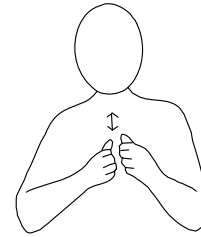

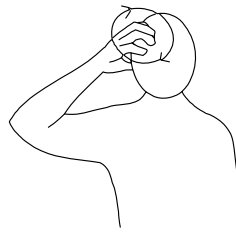

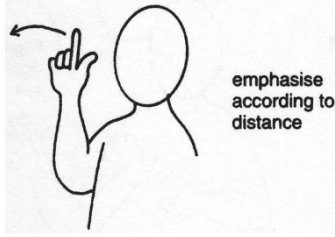

to shout

If you need me, call me

No matter where you are

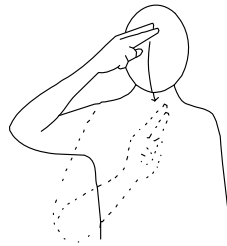

No matter how far. Don't worry brother.

Palm forward
fist hand
bursts open
while moving
forward

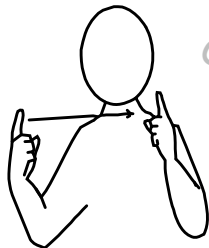

to shout

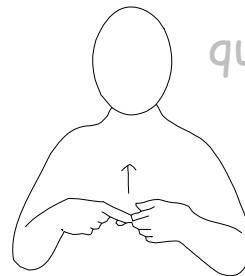

Just call out my

name

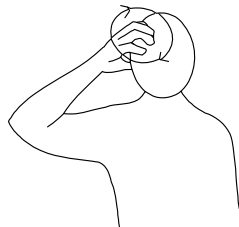

closer

quickly

I'll be there in a

hurry

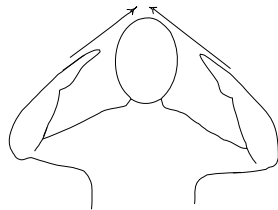

You don't have to worry

Touching fist hands,
thumbs extended,
held in front of body.
Formation moves
back to left side of
chest

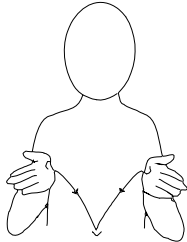

partner

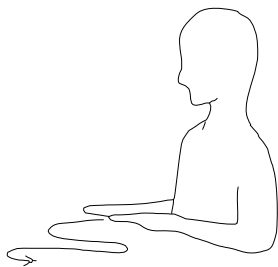

Because baby,

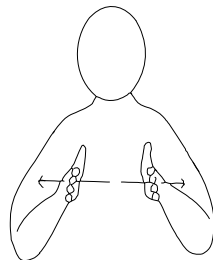

There ain't no mountain high enough

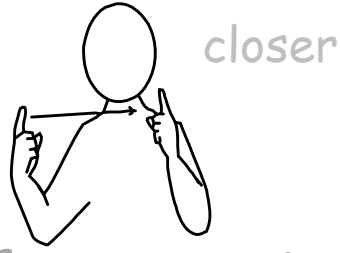

Ain't no valley low enough

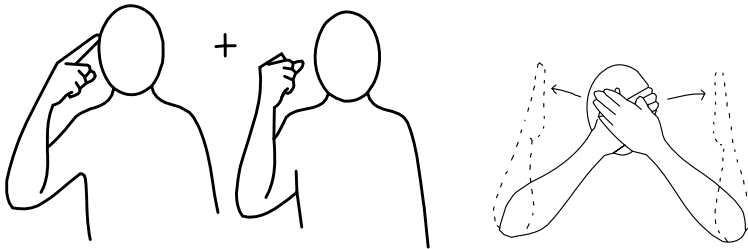

Ain't no river

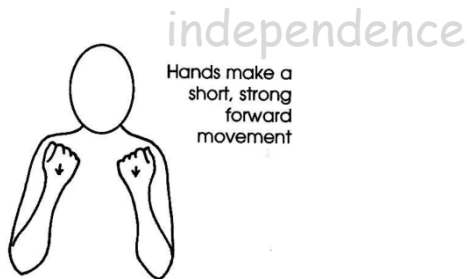

wide enough

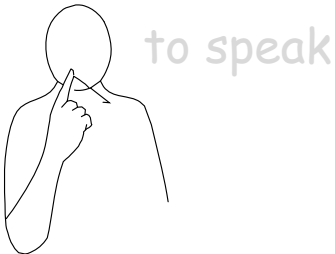

To keep me from getting to you babe.

Remember the day

You set me free

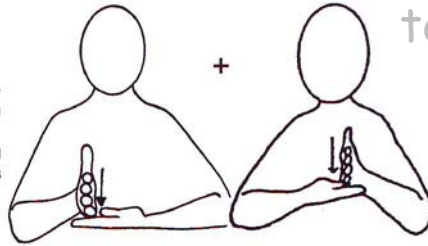

I told you

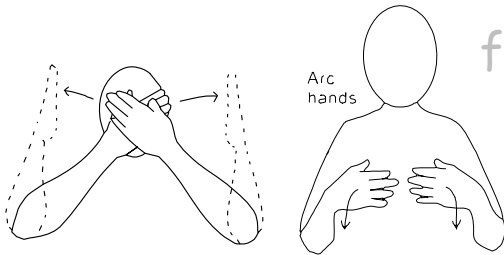

You could **always**

Hand strikes palm deliberately. Repeat reversing hands

to trust

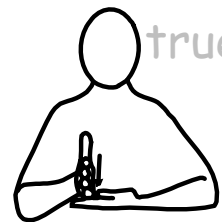

count on me

Arc hands

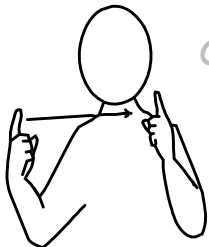

forwards

From that **day on,**

true

I made a **vow**

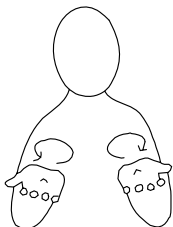

closer

want

I'll be there when you **want me**

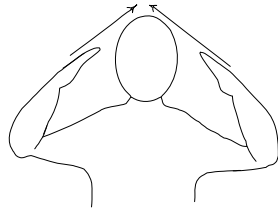

Some where, some how

Touching fist hands,
thumbs extended,
held in front of body.
Formation moves
back to left side of
chest

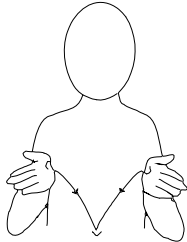

partner

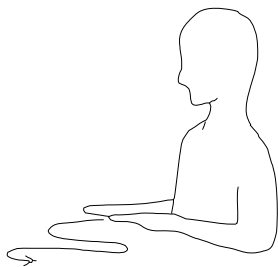

Because baby,

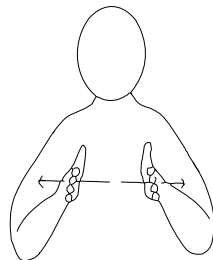

There ain't no mountain high enough

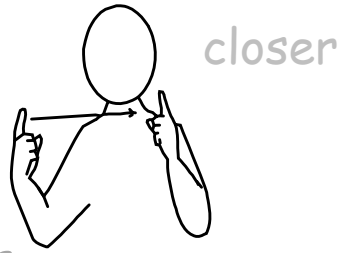

Ain't no valley low enough

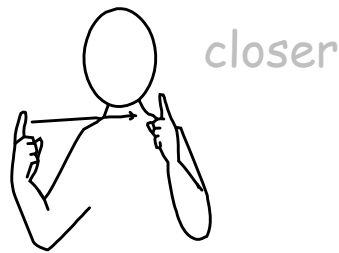

Ain't no river

wide enough

To keep me from getting to you babe.

To keep me from getting to you.
